## LANGUAGE

---

English, Nepali, Hindi

## SUMMARY

---

Computer engineering student with a profound understanding of JavaScript frameworks such as React, Node.js, and Express.js. I possess substantial experience with Figma and Git/GitHub. At present, I am delving into backend and blockchain technologies.

## EDUCATION

---

### Bachelors in Computer Engineering

IOE, Pulchowk Campus / Lalitpur, Nepal / April, 2023 - Present

### +2 Science

Gorkha International Public Secondary School / Dang / August, 2020 - August, 2022

### SEE

Lok Chetana Academy / Pyuthan / April, 2019 - April, 2020

## TRAINING/CERTIFICATIONS

---

- Introduction to Front-End Development Meta

- Programiz Python Basics

## PROJECTS INVOLVED

---

### Demo Visit Nepal [ React , Leaflet , Redux ]

I made a demo "Visit Nepal" app aimed at international travellers. The app enables users to view a map, pinpoint locations, and log their experiences with dates and descriptions, allowing them to track their journeys through Nepal effortlessly.

<https://demovisitnepal.netlify.app/>

### Sagarmatha Screens [ Vanilla JavaScript and CSS ]

I created a vanilla JavaScript and CSS project to develop an OTT-like platform for Nepali movies.
